<p>The children in our EYFS unit have high quality continuous provision that enables them to learn new knowledge and skills every day. The topics are a guide to the experiences the children may have and a way to ignite the learning but this is dependent on the developmental stage the children are at. Provision is enhanced and adapted to meet the needs of all of our children in Nursery and Reception to ensure they meet their developmental milestones enabling them to be able to do, learn and know more. The Knowledge and Skills Progression Documents provide further guidance on what the children will learn, know and be able to do by the end of Reception to ensure they are 'Year One' ready .</p>
